

Material Safety Data Sheet (MSDS) HEXALGIN PLUS

1. PRODUCT AND COMPANY IDENTIFICATION

Product Identifier:

Product name : **HEXALGIN PLUS**
 Synonyms : Hexalgin Plus Pink, Hexalgin Plus Chromatic
 Product code : G2, G1, dan G3

Recommended Use:

This product will be used as material for dental dental treatment applications.

Manufacturer:

PT HEXA DENTAL INDONESIA

Indonesia Dental Material Manufacture
 Jl. Padurenan IV Kav. 120, Gn. Sindur, Bogor, Jawa Barat.
 Web : www.hexadental.co.id
 Telp : +62-251-8413508
 Email : sales@hexadental.co.id

Emergency contact (24 hours): +62-251-8413 508

2. HAZARDS IDENTIFICATION

Classification of the mixture according to GHS 7th Revised Edition & SNI 9030-1:2021

Physical hazards	Not classified	
Health hazards	Serious eye damage	Category 1
	Skin sensitization	Category 1
	Specific target organ toxicity, repeated exposure	Category 1
Environmental hazards	Not classified	

Label Elements

Symbol:

Signal Word: DANGER

Hazard Statements

H317 May cause an allergic skin reaction.
 H318 Causes serious eye damage.
 H372 Causes damage to organs (lungs) through prolonged or repeated exposure.

Precautionary Statements

P233 Keep container tightly closed.
 P261 Avoid breathing dust.
 P264 Wash skin thoroughly after handling.
 P272 Contaminated work clothing should not be allowed out of the workplace.
 P280 Wear protective gloves/eye protection/face protection.
 P302+P352 IF ON SKIN: Wash with plenty of water.
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present

Material Safety Data Sheet (MSDS) HEXALGIN PLUS

P314 P501	and easy to do. Continue rinsing. Get medical advice/ attention if you feel unwell. Dispose of contents/container in accordance with local/national/regional/international regulations.																				
3. INFORMATION AND COMPOSITION INGREDIENT																					
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Chemical Name</th> <th style="text-align: center;">Molecular Formula</th> <th style="text-align: center;">CAS Number</th> <th style="text-align: center;">Concentration</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">Diatomaceous earth</td> <td style="text-align: center;">SiO₂.nH₂O</td> <td style="text-align: center;">68855-54-9</td> <td style="text-align: center;">55-80 %</td> </tr> <tr> <td style="text-align: center;">Calcium sulfate</td> <td style="text-align: center;">CaSO₄</td> <td style="text-align: center;">7778-18-9</td> <td style="text-align: center;">35-45 %</td> </tr> <tr> <td style="text-align: center;">Potassium alginate</td> <td style="text-align: center;">(C₆H₇KO₆)_n</td> <td style="text-align: center;">9005-36-1</td> <td style="text-align: center;">Proprietary*</td> </tr> <tr> <td style="text-align: center;">Potassium hexafluoro titanate</td> <td style="text-align: center;">F₆K₂Ti</td> <td style="text-align: center;">16919-27-0</td> <td style="text-align: center;">Proprietary*</td> </tr> </tbody> </table> <p>*Designated that a specific chemical identity and/or percentage of composition has been withheld as a trade secret</p>		Chemical Name	Molecular Formula	CAS Number	Concentration	Diatomaceous earth	SiO ₂ .nH ₂ O	68855-54-9	55-80 %	Calcium sulfate	CaSO ₄	7778-18-9	35-45 %	Potassium alginate	(C ₆ H ₇ KO ₆) _n	9005-36-1	Proprietary*	Potassium hexafluoro titanate	F ₆ K ₂ Ti	16919-27-0	Proprietary*

4. FIRST AID MEASURES																					
<p>DESCRIPTION OF FIRST AIR MEASURES</p> <p>After inhalation: Move the person to fresh air. Keep at rest in a comfortable position for breathing. In case of skin contact: Flush skin with plenty of water for hygiene purposes. After eye contact: Flush eyes with plenty of water for several minutes for hygiene purposes. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical attention if irritation persists. After swallowing: Rinse mouth with water. Do not induce vomiting. Seek medical attention immediately.</p> <p>MOST IMPORTANT SYMPTOMS AND EFFECT, BOTH ACUTE AND DELAYED Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.</p> <p>INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.</p> <p>OTHER INFORMATION Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.</p>																					
5. FIREFIGHTING MEASURES																					
<p>SUITABLE EXTINGUISHING MEDIA Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO₂).</p> <p>UNSUITABLE EXTINGUISHING MEDIA Do not use water jet as an extinguisher, as this will spread the fire.</p> <p>SPECIFIC HAZARDS ARISING FROM THE CHEMICAL During fire, gases hazardous to health may be formed.</p> <p>ADVICE FOR FIREFIGHTERS Self-contained breathing apparatus and full protective clothing must be worn in case of fire. In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use standard firefighting procedures and consider the hazards of other involved materials.</p> <p>OTHER INFORMATION No information available.</p>																					

Material Safety Data Sheet (MSDS) HEXALGIN PLUS

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

ENVIRONMENTAL PRECAUTIONS

Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING UP

Use water spray to reduce vapors or divert vapor cloud drift. Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING

Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the Safety Data Sheet).

8. PERSONAL PROTECTION AND EXPOSURE CONTROLS

EXPOSURE LIMITS

No specific occupational exposure limits have been established for this material. However, recommended limit of not specified dust are 10 mg/m³ of total dust or 5 mg/m³ of respirable dust according to OSHA and NIOSH. Recommended limit of not specified dust are 10 mg/m³ of total dust or 3 mg/m³ of respirable dust according to ACGIH.

HYGIENE MEASURE

Observe any medical surveillance requirements. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

RESPIRATORY PROTECTION

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable), an approved respirator must be worn, use a NIOSH-approved particulate respirator (e.g., N95, P2, or equivalent).

EYE PROTECTION

Face shield is recommended. Wear safety glasses with side shields (or goggles).

SKIN PROTECTION

Wear appropriate chemical resistant gloves. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Material Safety Data Sheet (MSDS) HEXALGIN PLUS

ENVIRONMENTAL CONTROLS

The employer should meet the requirements imposed by the environmental protection law.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	
Physical state	: Solid
Form	: Powder
Color	: White
Odor	: Odorless
Odor threshold	: No information available
Density	: No information available
Specific gravity (25°C)	: No information available
Viscosity	: No information available
Vapor pressure	: No information available
Initial boiling point	: No information available
Melting point	: No information available
Flash point	: No information available
pH	: No information available
Solubility in water	: No information available
Solubility in organic solvent	: No information available
Auto-ignition temperature	: No information available
Softening point	: No information available
Dispersion properties	: No information available
Upper/lower flammability or explosive limits	
Flammability limit-lower (%)	: No information available
Flammability limit-upper (%)	: No information available
Explosive limit-lower (%)	: No information available
Explosive limit-upper (%)	: No information available
Other information	
Explosive properties	: Not explosive
Flammability class	: Not combustible
Oxidizing properties	: Not oxidizing
Percent volatile	: No information available
VOC	: No information available

10. STABILITY AND REACTIVITY

CHEMICAL STABILITY

The product is chemically stable under normal conditions of handling, storage and use.

REACTIVITY

This material is not reactive under normal conditions of handling, storage and use.

CONDITIONS TO AVOID

Avoid strong heating, open flames, and excessive temperatures that may cause decomposition or ignition. Prevent exposure to direct sunlight for prolonged periods.

INCOMPATIBILITY

Strong oxidizing agents may react with organic materials and should be avoided.

Material Safety Data Sheet (MSDS) HEXALGIN PLUS

POSSIBILITY OF HAZARDOUS REACTIONS

No hazardous polymerization or other hazardous reactions are expected under normal processing or storage conditions.

HAZARD PRODUCT DECOMPOSITION

Thermal decomposition or incomplete combustion may produce hazardous gases, including carbon monoxide (CO), carbon dioxide (CO₂), amines and peroxide compounds. Combustion may generate dense smoke and irritating fumes.

POLYMERIZATION

Hazardous polymerization will not occur under normal working conditions.

11. TOXICOLOGY INFORMATION

ACUTE TOXICITY

Acute Oral Toxicity Estimate (ATE) calculated: >2000 mg/kg. Acute Dermal Toxicity Estimate (ATE) calculated: >2000 mg/kg. Inhalation Acute Toxicity Estimate (ATE) calculated: >10 mg/l. Based on ATE information, this product is not expected to be classified as an acute toxicity (oral, dermal and/or inhalation).

IRRITANCY

This product is expected to be material cause serious eye damage (category 1) and not cause skin corrosion/irritation, based on the available data and the known hazards of the components.

SENSITIZATION

This product is expected to be a material that cause skin sensitization (category 1), based on the available data and the known hazards of the components.

CARCINOGENICITY

This product is not regulated as a carcinogen by OSHA, IARC, and not listed as A1 or A2 carcinogens by ACGIH, based on the available data and the known hazards of the components.

SPEFIFIC TARGET ORGAN OXICITY

This product is expected to be specific target organ toxicity (lungs) through repeated exposure (category 1), based on the available data and the known hazards of the components.

REPRODUCTIVE TOXICITY

This product is not expected to be a reproductive toxin, based on the available data and the known hazards of the components.

TETRAGENOCITY

This product is not expected to be a teratogen or an embryo toxin, based on the available data and the known hazards of the components.

MUTAGENICITY

This product is not expected to be a mutagen, based on the available data and the known hazards of the components.

12. ECOLOGYCAL INFORMATION

ECOTOXICITY

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

PERSISTENCE AND DEGRADABILITY

No data is available on the degradability of any ingredients in the mixture.

Material Safety Data Sheet (MSDS) HEXALGIN PLUS

BIOACCUMULATIVE POTENTIAL

No data is available on the bioaccumulative potential of any ingredients in the mixture.

MOBILITY IN SOIL

No information available.

OTHER ADVERSE EFFECTS

The product contains volatile organic compounds which have a photochemical ozone creation potential.

13. DISPOSAL CONSIDERATIONS

DISPOSAL INSTRUCTIONS

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the material under controlled conditions in an approved incinerator. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemicals or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

LOCAL DISPOSAL REGULATIONS

Dispose in accordance with all applicable regulations.

HAZARDOUS WASTE CODE

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

WASTE FROM RESIDU/UNUSED PRODUCT

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

CONTAMINATED PACKAGING

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

ADR/RID (LAND TRANSPORT)

Proper shipping name	DENTAL TREATMENT MATERIAL, NOT REGULATED AS DANGEROUS GOODS FOR TRANSPORTATION
